The Northern Region Indian Seniors Association – Darebin Council with in its work for the community

To whom it may concern

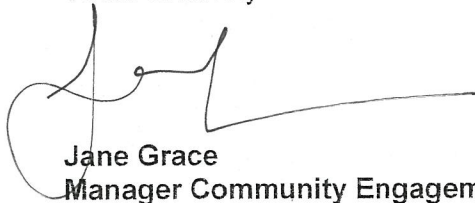

Yarra Plenty Region Library (Ivanhoe Library) has worked in partnership with The Northern Region Indian Seniors Association in organising several colourful cultural event as part of Yarra Plenty Regional Library program and events for Multicultural groups in our local area.

In particular we have worked closely and very successfully with the Indian Cultural events held in March/April for the last three years. We will continue the working partnership with NRISA and support future events and activities.

Yarra Plenty Regional Library is very keen to work collaboratively with NRISA to promote Indian heritage, cultural and festival activities.

The partnership with NRISA enables YPRL to hold events which provide accessibility and participation by a wide cross section of the community, reflecting the cultural diversity of the City of Banyule and through activities create a sense of an informed, educated, inspired and connected community.

Yours sincerely

Jane Grace
